DRY GOODS MARKET.

New York, August 30.—The most interesting development in the primary cotton goods market was the naming of prices on fancy and staple glinghams for spring, 1911, delivery. These prices were the same as those prevailing for the current fall season. The announcement was a supprise, as higher prices were expected. In the mars wear market the sentment is improving.

Duplicates are being received in worted, although the clothlers have not started out with spring lines. The cotton yarn market is quiet with little doing in drills for export.
